PLEGIUM SMART- USER MANUAL

PLEGIUM SMART EMERGENCY BUTTON – SMART PERSONAL ALARM

PLEGIUM Smart Emergency Button – smart personal alarm is personal alarm in the form of a smart button. Once activated, it sends automatic GPS location text messages and initiates phone calls to selected emergency contacts for free.

Set up in 1 minute:

1. Download the free Plegium app
2. Enter the four-digit code on the back of the smart personal alarm
3. Add up to 5 emergency contacts

Instructions for use:

1. Press and hold the two buttons on the side of the smart personal alarm for two seconds to activate the alarm
2. Your emergency contacts will receive a phone call and a text message with your exact location

It is designed to be as easy to use as possible. It is suitable for small children, teenagers, and adults – simply, anyone who might need quick help or assistance.
