Snap Clamp

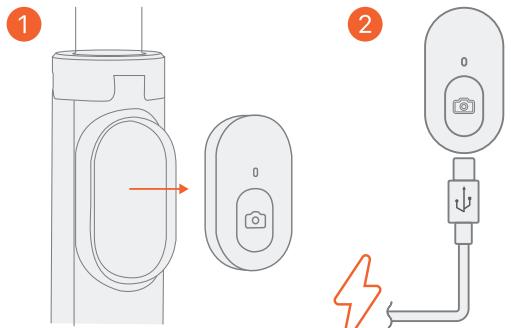

Charging the Bluetooth Remote Chargement de la télécommande Bluetooth Aufladen der Bluetooth-Fernbedienung Cargar el mando a distancia Bluetooth

Take out the Bluetooth Remote and plug the Type-C Cord to the bottom of the Bluetooth Remote and attach the other end of the cable to power.

Retirez la télécommande Bluetooth et branchez le cordon de type C à la base de la télécommande Bluetooth, puis fixez l'autre extrémité du câble à l'alimentation.

Nehmen Sie die Bluetooth-Fernbedienung heraus, schließen Sie das USB-C-Kabel an der Unterseite der Bluetooth-Fernbedienung an und verbinden Sie das andere Ende des Kabels mit der Stromversorgung.

Saca el mando a distancia Bluetooth y conecta el cable Type-C en la parte inferior. Luego, conecta el otro extremo a la corriente.

FCC FCC | IC: 30569-SAB02

This device complies with Part 15 of the FCC Rules and with RSS-247 of Industry Canada. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas émettre d'interférences nuisibles; et (2) l'appareil doit pouvoir accepter toute interférence reçue, y compris celle qui risque de compromettre son fonctionnement.

The product complies with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power.

Le taux d'exposition aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé. Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.

The device has been evaluated to meet general RF exposure requirement. The device can be used in normal exposure condition without restriction Federal Communication Commission (FCC) radiation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

WEEE Information

According to the WEEE (Waste Electrical and Electronic Equipment) Directive, do not dispose of this product as household waste or commercial waste. Waste electrical and electronic equipment should be appropriately collected and recycled as required by practices established for your country. For information on recycling of this product, please contact your local authorities, your household waste disposal service, or the shop where you purchased the product.

DECLARATION OF CONFORMITY

Shiftcam declares that this product is in compliance with the essential requirements and other relevant provisions of applicable CE directives. For Europe, a copy of the Declaration of Conformity this product may be obtained by visiting www.ShiftCam.com

Bluetooth-Verbindung
Conexión Bluetooth

Long pressing the shutter button for 3 seconds. Then turn on Bluetooth on your phone. Connect to "SnapStand". When the flashing stops and turns solid blue, the pairing is complete.

Appuyez longuement sur le bouton de l'obturateur pendant 3 secondes. Activez ensuite le Bluetooth sur votre téléphone. Connectez-vous à "SnapStand". Lorsque le clignotement s'arrête et devient bleu fixe, le couplage est complet.

Halten Sie den Auslöser 3 Sekunden lang gedrückt. Aktivieren Sie dann Bluetooth auf Ihrem Smartphone. Stellen Sie eine Verbindung mit dem "SnapStand" her. Wenn das Blinken aufhört und dauerhaft blau wird, ist die Kopplung abgeschlossen.

Presiona el botón del obturador durante 3 segundos. Luego, activa el Bluetooth en tu teléfono y conéctalo a 'SnapStand'. Cuando la luz deje de parpadear y se vuelva azul sólido, la conexión estará completa.
