

Direct-to-Lens

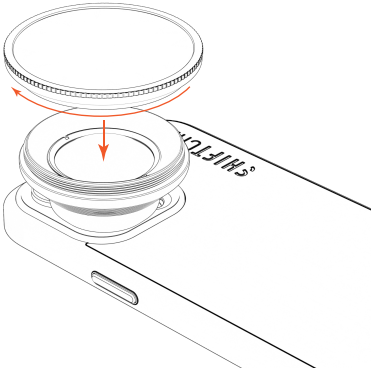

1 Attach your lens to your mounting system.

2 Turning Anti-Clockwise, unscrew the lens ring to reveal the threading.

3 Place your filter above the lens and Rotate Clockwise until secure.

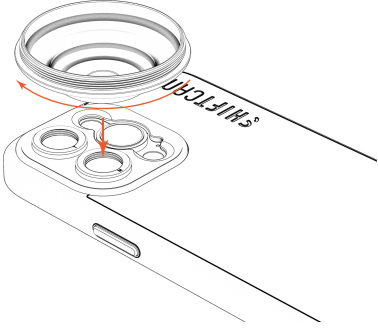

Using Filter Adapters

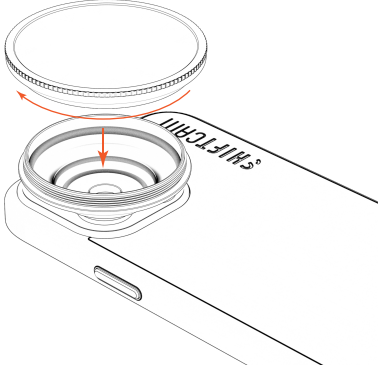

1 Alternatively, you may use a filter adapter for direct-to-mobile or anamorphic filter mounting.

2 Place your filter adapter above the (Main) camera lens and rotate Clockwise until secure.

3 Align your filter above the filter adapter and rotate Clockwise until secure.

Warning

- Do not touch the surface of the filter with your fingers, as it may leave fingerprints or smudges that can affect image quality.
- Clean the filter regularly with a microfiber cloth to remove dust and dirt. Do not use harsh chemicals or abrasive materials to clean the filter.
- Do not stack multiple filters on top of each other, as this may cause vignetting or other image distortion.
- Do not use on non-ShiftCam lenses to avoid damaging the filter or lens threads.
- Do not expose the filter to extreme temperatures or humidity, as this may cause damage or condensation.
- Store the filter in a clean, dry place when not in use to avoid dust or debris buildup.
- Check the filter regularly for signs of damage or wear, and replace if necessary.
